Claims 2-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 2-4 dependent on claim 1 refer to the base element which has not positively been claimed. As such, the claims are indefinite.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 (in so far as understood) are rejected under 35 U.S.C. 102(b) as being anticipated by Baudino 5,743,414.

Note clamp elements, best seen in figures 4 and 5. Note leg elements 50,51; holding elements 42,43.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar clamping elements are illustrated by Bartleman 2,615,577; Bisping 4,119,285.
